Santo Domingo Radio Universal in Spanish 1130 GMT 26 November 1965--C

(Text) A total of 38 persons charged with having participated in the plot prepared in Santiago de los Caballeros to overthrow Dr. Hector Garcia Godoy's provisional government last Monday, were placed yesterday in the hands of the justice courts by the national police. Among the persons charged with plotting against the government are: Dr. Tomas Alcibiades Espinosa who was proclaimed democratic revolutionary president by the movement, businessman Jose Rafael Espalliat Gonzalez, Luis Ramirez Subervi, (Abonito Pastias Foreta--phonetic) Ponce Perez Morales, Homero Gonzalez Mera, Mejia Santos Reyes, Nicolas (Contrae--phonetic) Rodriguez, Lorenzo Taveras Burgos, Pedro (Barria--phonetic) Caraballo, Candido Polanco de la Cruz, Juan Caraballo Guzman and others.

The new attorney general, Luis Gomez Ceara, yesterday said that one of his first actions was to ask the police chief to arraign the prisoners and that the police had promised it would be done yesterday. Gomez Ceara said he made this request because the prisoners had been under arrest more than 48 hours and the law states that a person must be arraigned within that time. He also said that the competent court to judge the prisoners involved in the plot is the court of Santiago de los Caballeros where the incident took place.

✓ (Editor's Note: Santo Domingo Radio Comercial in Spanish 1700 GMT 26 November adds that the attorney general of the republic ordered an extensive investigation to clear up the situation facing judicial officials in Barahona. ## ✓ DELEGATION AT RIO SUPPORTS COLOMBIA PROPOSAL

Santo Domingo Radio Comercial in Spanish 1030 GMT 26 November 1965--C

(Excerpt) Rio de Janeiro--The Dominican delegation stated yesterday that it will support Colombia's resolution which reaffirms the principle of non-intervention. This was the first position adopted by the Dominican foreign minister, Jose Ramon Rodriguez, who previously told the conference that his delegation would reserve for the constitutional government which the Dominican people will elect next year all statements on reforms to the OAS charter.

A statement issued yesterday by the delegation, on behalf of the Dominican foreign minister said: "The proposed resolution introduced by the Colombian delegation regarding non-intervention is a reaffirmation of basic principles of the OAS charter and not a change of the charter.

"Therefore, the Dominican delegation cannot object to the reaffirmation of that principle inasmuch as my government and my country oppose any manifestation of intervention because of historic reasons. In this sense, our tradition has always been invariable. On 4 November 1965, President Garcia Godoy told the national and foreign press that his government would oppose the creation of an Inter-American Peace Force because it feels that the principle of non-intervention is a sacred concept. I make this clarification now because when I quoted the statements setting forth the Dominican provisional government's position, the Colombian resolution had not been circulated."

(Editor's note: Santo Domingo Radio Universal in Spanish 1130 GMT 27 November adds that Dominican Foreign Minister Jose Ramon Rodriguez suddenly left the Rio de Janeiro meeting to return to Santo Domingo, without giving any explanation to the press.)

PRESIDENT'S OFFICE COMMUNIQUE ON SANTIAGO

Santo Domingo Domestic Service in Spanish 2030 GMT 29 November 1965--C

(Communique from the Office of the President)

(Text) In connection with the recent events which took place in Santiago and in other places, the Office of the President reports the following facts to the citizens: According to reliable reports in possession of the government and judicial officials, a well-known group of persons intends to carry out a plan which includes terrorist and violent actions, attempts against people's lives, murders, kidnappings, and similar acts, to create a chaotic situation which will cause the fall of the government. The insurrectional movement launched in Santiago on 22 November was part of that terrorist plan. That movement was immediately stifled by the timely and vigorous action of military and police authorities who arrested several of the leaders and other persons caught at the scene of the events. The persons arrested at that time have been placed at the disposal of the courts. However, not all persons involved in the terrorist plan have been arrested. Others whose names are not mentioned for obvious reasons are also involved. Therefore, we are not dealing with individuals who act peacefully, moved by democratic ideals, but with groups whose main objective is to create an abnormal situation, to disturb public order, and to obstruct governmental activities. The government has in its possession all details of the plan and has taken necessary measures to prevent the materialization of said plan so that all persons involved may be brought before the courts. The Armed Forces and the National Police, fulfilling their functions to guarantee public order and safeguard peace, and pursuant to orders issued by the Office of the Presidency, are on the alert to repress any other subversive attempt or terrorist acts carried out in the national territory. Santo Domingo, National District, 29 November 1965.

Santo Domingo Domestic Service in Spanish 1030 GMT 29 November 1965--C

(Summary) Reformist Party President Joaquin Balaguer yesterday declared in Santiago that in the Dominican Republic strong governments are no longer those which rely on the backing of the bayonets but rather acquire their strength through the backing of people. Balaguer made his statements to thousands of his followers who met yesterday morning in the Cibao football stadium. Balaguer said that an authentic election will be the only action through which we will achieve the beneficial results the nation needs for its pacification. Our efforts must seek to oblige the political parties to respect the laws or eliminate them if they do not produce the desired results.

Balaguer added that he would give his backing to a crusade against misery and foreign intervention. He also referred to other problems affecting the Dominican nation.
